THE BELGIAN NOTE TO GERMANY.

A DIPLOMATIC LECTURE FROM DRUSSELS TO BISMARCK-THE "DEFICIENCIES" OF THE PRUSSIAN PENAL CODE.

BRUSSELS, May 4, 1875. In the Chamber of Representatives to-day, M. Aspremont-Lynden, the Minister of Foreign Afmirs, read the roply of the Belgian government to the German note of February 15.

The Brussels note denies that Belgium has deelined to consider Germany's demands. The question of fulfilling the obligation to prevent subjects from disturbing neignboring countries, lies not to Belgium alone, but to all States which regard it as their duty to watch over peace. When the Belgian government is apprised of

the steps taken in Germany and other countries to remedy the deficiencies in their penal laws, it will examine its own in their bearing on the cusioms, traditions and liberties of Belgium. With the sincerest desire to co-operate in the maintenance of good relations. Belgium is deter-

THE ENGLISH PRESS AND PARLIAMENT.

LEGISLATIVE DEBATE ON THE RIGHTS AND PRIVILEGES OF THE NEWSPAPERS-DISRAELI DEFENDS THE ANCIENT AND EXISTING ORDER OF BUILT.

LONDON, May 4, 1875. The House of Commons was engaged in debate o-night on a motion made by the Marquis of Hartington that the House do not entertain any complaint with respect to the publication of its proceedings axcept in cases of wilful misrepresentation, or whin publication thereof is expressly prohibited, and that strangers are not to be dered to withGraw from the galleries unless they are disorderly or by vote of the House.

Mr. Disraeli opposed any curtailment of priviiege. The Honse was able to deal with the inconvenience caused by the present method of excluding strangers by suspending the rule permitting a single member to order their withdrawal. Mr. Lowe denounced the continuance of the

anomaly.

At this state of the debate Mr. Sollivan called attention to the presence of strangers, and the galleries were accordingly cleared. The debate on the Marquis of Hartington's mo

BRITISH CONSERVATIVE OPINION OF THE EX-

PREMIER'S LEXINGTON LETTER. LONDON, May 5-4:30 A. M.

The Standard severely crivicises the letter from Mr. Gladstone read at the Centennial celebration of the Battle of Lexington. The writer in the Standard remarks that "the

habit of tondying to Americans is discreditable in English public men and journalists. The results of the republican experiment in the United States are corruption of public life, extinction of public spirit, oppression of the minority, disgust of the honorable men with politics and the transfer of the government into the hands of corrupt, unscrupulous and ignorant men."

THE OPPOSITE VIEW-ME. GLADSTONE'S VIEWS ENDORSED.

LONDON, May 5-5:30 A. M. The Times fully endorses Mr. Gladstone's letter, and says it would be "melancholy if the first great attempt to complete independence should result in social anarchy, although there is nothing at present to justify such fears. Grave evils exist in some American institutions which must be remedied if progress is to be kept up."

THE JACKSON DEMOCRATIC ASSOCIATION AND THE COMING PRESIDENTIAL CONTEST.

The Jackson Democratic Association met here to-night, and a resolution was submitted recommending the nomination of Senator A. G. Thurman, of Ohio, for President, and Senator Thos. P. Bayard, of Delaware, for Vice President, on a plat-form recognizing all the amendments to the constitution, upiform taxation and currency, and no discrimination in favor of the bondwolders. The resolution was laid over till the next meeting. STRIKE OF LABORERS ON THE PUBLIC WORKS.

Many of the laborers on public works under contractors have struck for \$1 50, the price paid being \$1 a day. They yesterday and to-day as-sembled in large numbers, but their conduct has been peaceable. Much sympathy is expressed for as all agree that that sum is inadequate for labor of any kind; but, on the other hand, the contractors assert it is all they can possibly afford to give, as the price paid for work and the loss sustained by the sale of District bonds leaves them without profit.

THE TRIAL OF GERDEMANN.

SECOND DAY'S PROCEEDINGS OF THE TRIAL OF EX-PRIEST GERDEMANN-EVIDENCE AS TO THE PAYMENTS OF MONEY.

PHILADELPHIA, May 4, 1875. At the resumption of the Gerdemann case this morning the crowds were as large as on the pre-

ceding day. Before the resumption of testimony Mr. Mann, for the people, called attention to the fact that the accused had been insulted and hooted at by a crowd on leaving the court yesterday. He hoped the Court would endeavor to prevent its recurrence, both for the sake of fair play to Mr. Gerdemann and that the jury might not be influenced

by these demonstrations. His Honor said that if Mr. Heverin desired it his client should be protected by the Court, and he would certainly punish any one detected in disturbing the Court or molesting the accused.

Mr. Altmeir again took the stand and his crossexamination was continued by Mr. Heverin. The questioning was very severe, but the witness in the main adhered to all his statements as to the amount of money received and expended by the pastor. His imperfect knowledge of English rendered him an easy prey to the lawyer, and he involved himself in some verbal contradictions. although the matter of fact was left intact. The examination was marked by several lively contests between the witness and the contending counsel. The witness could not remember details as to the sums of money received from the various

THE TURBULENT MINERS.

Another Outbreak in the Wyoming and Lihigh Regions.

CONTEST OF CAPITAL AND LABOR.

Ultimatum of the Lehigh and Wilkesbarre Coal Company.

INDIGNATION MEETINGS IN THE WOODS.

WILKESBARRE, May 4, 1875. The advance of twenty cents per ton in the price of coal for the present month by the Delaware, Lackawanna and Western Railroad Company and the Delaware and Hudson Canal Company, with a rapidly increasing demand for the staple at the seaboard, has stimulated certain parties in this section to press matters a little and, if possible, induce the miners or force them to go to work. Mr. Charles Parrish, President of the Lehigh and Wilkesbarre Coal Company, exhibits a disposition to apply the whip and spur on the occasion, with what result remains to be seen. He has recently had an interview with the men employed in the company's mines at Sugar Notch, about three miles from this city, and after discussing the situation at some length, asked them if they were willing to accept his terms and go to work. He was answered with a most emphatic "No!" by all the men present at the interview.

Mr. Parrish then remarked that he had kept the mines free from water at great expense for over four months, in order to have them ready for operation when terms were agreed upon, and he would continue to do so until Thursday of this week, giving the men to that time to resume work, or remove all implements from the mines, preparatory to a stoppage of the pumps and subsequent flooding of the chambers and gang-This threat is by no means an idle one and shows to what a bitter pass the present struggie between capital and labor has come to in the Wyoming region. A flooding of the mines would prolong the suspension for at least two months, even after the men straify a disposition to go to work, and will bring incalculable evils upon all concerned.

THE OFFER OF MR. PAREISH.

THE WELSHMEN AND THE TRISHMEN. Great excitement has been created in Kingston, just across the river from this city, by an attempt to put the mines of Waterman & Beaver in operation at the ten per cent reduction. A gang of men were brought to the colliery from Danville, and it was anticipated that they would be joined by a portion of the Weish miners, who were in the employ of the company when the long suspension commenced. The Weishmen held a meeting on Sunday evening and voted to go to work, but the irishmen declared against resumption, unless at

AN INDIGNATION MEETING. Yesterday a large meeting of the Kingston miners was held in the woods, on the mountain back of the town, at which any amount of indignation and condemnation was expressed against the new comers and what was termed their allies. Subsequently a committee waited on the men inclined to make a break in the existing deadlock, and such potent arguments were used that the Danville men were induced to leave this morning and the others did not dare to brave the consequences for the present. It was asserted that Messrs, Waterman and Beaver only contemplated the production of coal for the iron works in which they are interested at Danville, but the miners regard their movement as only an entering wedge to split up the opposition to a reduction of wages, and hence their active resistance to it. It seems plain that a crisis is approaching in the Wyoming region. The discordant elements exhibit great uneasiness, and the break may come earlier than has been anticipated.

A MINE WORKING AGAIN, Eutchin's mine in Kingston is working again to-day. About a dozen men have gone in, and the production of coal is, of course, limited. The men were intimidated a few days since by coffin handbills and threatening missives, and their return to work is a straw indicating the direction of the current among the miners.

MUSICAL AND DRAMATIC NOTES. Mme. Ristori will make her last appearance on Thorsday afternoon in "Marie Antoinette." This evening Mr. Ruspold and Miss Rose Systems appear at the Academy of Music, Brooklyn, under Jarrett & Palmer's administration. "The Lady of Lyons" and "Black-Eyed Susan" are the pieces to

be played. Mr. F. S. Chanfrau and C. W. Tayleure have, under a liberal arrangement with its owners, become lessees of the Varieties Tacatre, New Orleans, and propose to make it the standard theatre of the South. A first class company has already been secured and all the leading stars, including Boucicault, John T. Raymond and John McCullough, The indications are that the new lessers will realize a brilliant success.

The programme arranged for the benefit of the industrious stage manager of Bootn's Theatre, Mr. John Vincent, which takes place to-morrow (Thursday) atternoon, is one of great attractiveness. Mr. Wallace's company appears, and so goes the full dramatic organization of his own establishment. The marked features of the entertalnment provided are the popular musical piece, "Tue Daughter of the Regiment," and the Bur toman comic drama, "The Serious Family," in which Mr. Wade and Mr. George Fawcett Rowe appear, and Mr. C. B. Bishop repeats his success ful impersonation of the part of Aminadab Sleek. An olio arrangement is also to be given, in which Miss Ruther ord, Mr. Wheelock, Alired Wilkie, J. n. Inomas and the original Madrigal Boys take part. The sale of seals is very brisk, and the prospect is that a bardworking and painstaking theatrical official will be substantially complimented.

BOAT CLUB HOUSE BURNED.

DESTRUCTION OF THE BUILDING OF THE GRAM-ERCY BOAT CLUB ON THE HABLEM RIVER. At a quarter past five o'clock last night Mr. John Kyle, who keeps a boat house on the southern shore of the Harlem River, at the foot of Fourth avenue and 183d street, discovered smoke ssuing from the one story frame building adjoining that of his own, and thereupon gave the signal to the Fire Department. Engine No. 36, which is stationed in Fourth avenue, between 126th and 127th streets, promptly responded to the call, and in a few minutes had several streams on the burning building. But owing to the strong northwest, in a few minutes after the fire had been discovered the frail structure was all ablaze and despite the heroic conduct of the members of Engine Company 55 and also of that of several other district companies the building was totally

destroyed.

It was owned and occupied by the Gramercy Boat Club as a boat nouse. When built it cost the club over \$1,000, which is a total loss to them, as it was not insured. At the time the fire took place several members of the club were out on the river practising, and owing to this fact hearly all the valuable boats were saved, excepting one, valued at \$100, which was destroyed. The clothing of most of the men who were practising was also burned, as they had donned their rowing builts to exercise themselves during the heat of the netarnoon. practising was also burned, as they and donned their rowing suits to exercise themselves during the neat of the atternoon, which loss will sum up to several hundred dollars. The fire is supposed to have originated from carelessness on the part of one of the memoers in throwing a lighted digar away. It came in contact with some of the light woodwork, which became easily ignited and caused the fire.

HEARTLESS CRUELTY TO A PRIS-ONER. A case of shocking cruelty to a prisoner in the

Hudson County Penitentiary occurred yesterday. James Lawton was sentenced to three months for arceny. He had sulfilled his term and was "working out his costs" in prison parlance. He was heavily shackled, and one of his nands was swollen to twice his ordinary size from a prolonged festering sore, so that the wretched man's entire system was debilitated. When the prisoners were ordered out to work on the farm Lawton was un-aute to leave the cell. Warden Post appeared and told him that the Doctor had ordered all the prisoners out to work. "I am hardly able to move," piteously implored the prisoner. The warden hisisted that he must get out, and the man at last said that he should be dragged out be-fore he would reave. At this rejoinder Post, it is man at last said that he should be drarged out before he would feave. At this rejoinder Post, it is
alleged, struck him several heavy blows in the
face till the blood gushed from his nose and
month. He was then thrown into the dark cell,
where he now remains. A Herath reporter called
on county Physician Stout, who defined positively
that he had given any order to place sick or disabled
prisoners at outdoor work. He had not been
dailed upon to attend this man since he was
heaten nor was the case reported to him at all,
No report was made to the Board of Freeholders
that organized yesterday, but Mr. Young, who
was elected chairman, stated in his mangural
address that the demoratization and tack of
discipline in the Penitentisty are a disgrace not
only to Mulson county but to the State, and he
urged the Board to sweep away the present
management of that maticulou. The case of
Lawion will be promorable before the Grand Jury that management of that institution. The case of Lawton will be brought before the Grand Jury that

Yesterday the Presbytery of Newark met at the Third Presbyterian church in that city. Rev. Dr. Wilson, a committee appointed to consider the overture of the General Assembly for a change in the office of the eldership, read a long report opposing the proposed change on the ground that the elder was a representative of Carist and should hold office not subject to the mere changing will of the people. No definite action was taken on the report. A decided sensation was occasioned by the reading of a communication from her. Issae B. tenbroeck, stating that he had retired from the Presbyterian Church and had joined the Espitsts. His reason was that he hadd it impossible to accept the Presbyterian as a sacrament, and breaty broadly intimated his opinion that the Presbyterian themselves did not believe in what they professed, it seems that Tenbroeck is a young conced man, was was cilicated at the expense of the Presbytery, and had just been hocaised to preach, with a view to his being sent South as a missi hary among people of his own race. Exasperated at his case ingratitude the Presbytery ordered his hame stricken from the list of munisters, the word "insolent" written on his communication and returned to him. the office of the eldership, read a long report op-

NEW YORK, May 3, 1875. TO THE MEMBERS OF THE CHAMBER OF

Commerce of the State of New York:

The undersigned, your fellow members, beg to call your attention to the annual election of officers, to be held on Thursday, May 6, at the rooms of the Chamber, at lovdoex P, M.

The importance of these elections, in respect to the honor and inducace of the Chamber of Commerce, has so frequently been looked upon with indifference, or forgotten, that any opposition to regular nominations has long since ceased.

The welfare of the Chamber, at this juncture, requires a new entingsiasm in its behalf to be groused among the members, so as to take it out of the groove, or rat, into which it is now running.

The usefulness of the organization and its influence a new enthusiasm in us behalf to be arouse, or rat, into members, so as to take it out of the groove, or rat, into which it is now running.

The usefulness of the organization and its influence over the commerce of the city and state of New York over the commerce of the city and state of New York of sound and practical views on the subjects of innunder that the contract of the co
